

Migrating to Bsure Insights v2

Agenda

- Why a new version?
- Demo
 - Install version 2
 - Migrate data
 - Remove old version
- Q&A

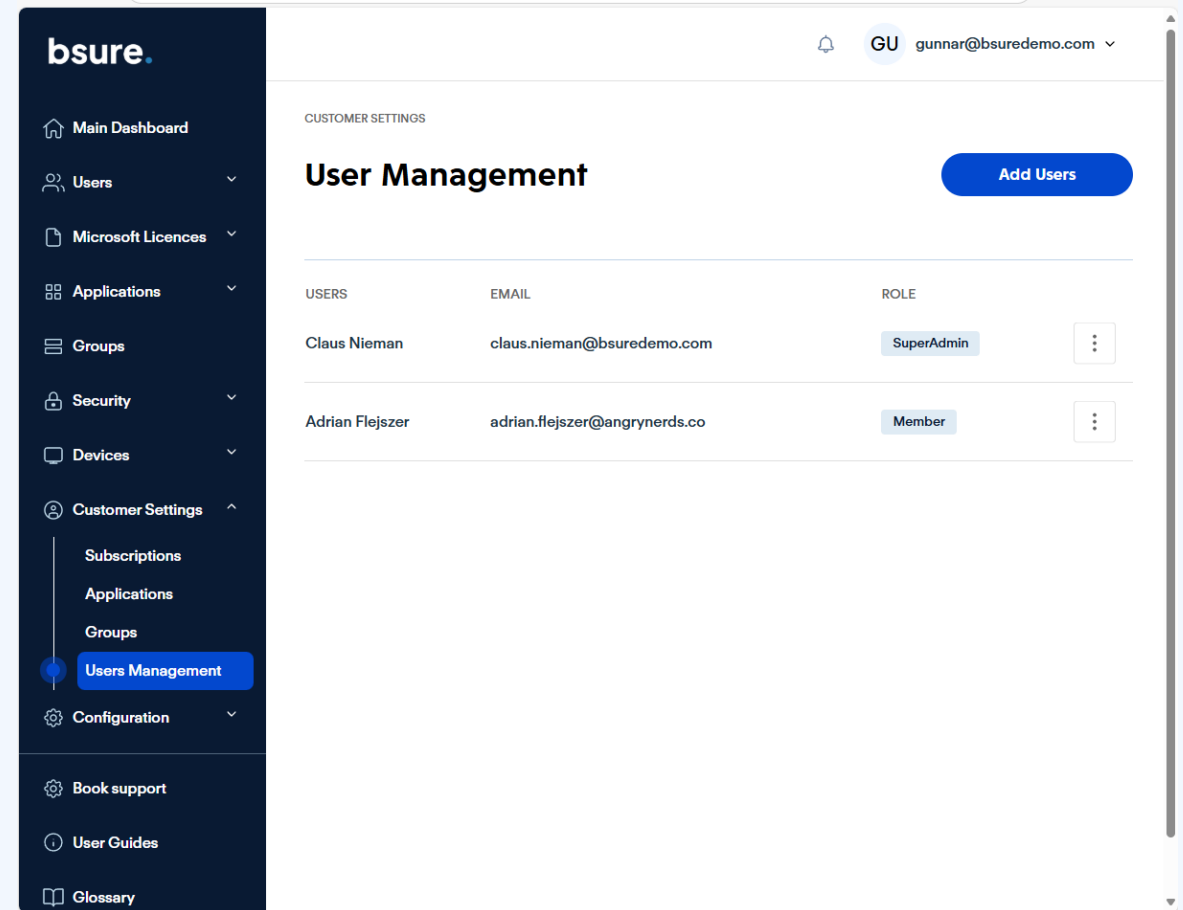

Bsure Insights – Why a new version?

Version 1 has served us and our customers well.

Some lessons learned.

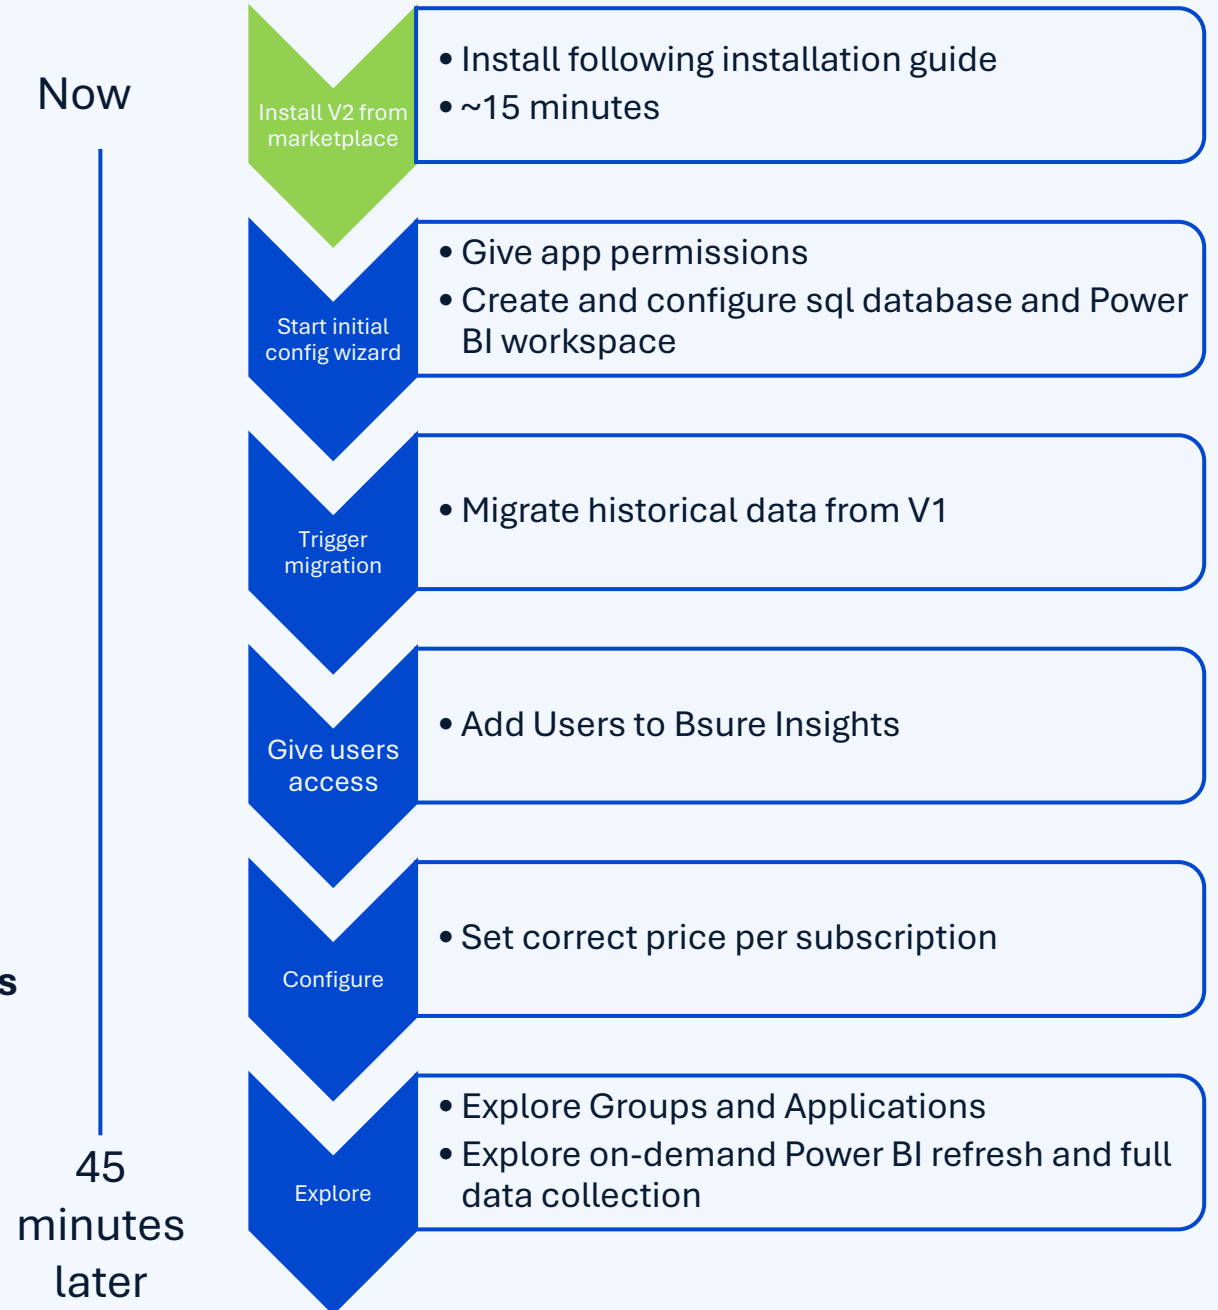

Project to develop a new platform and architecture started summer 2024 and **version 2** is now launched.

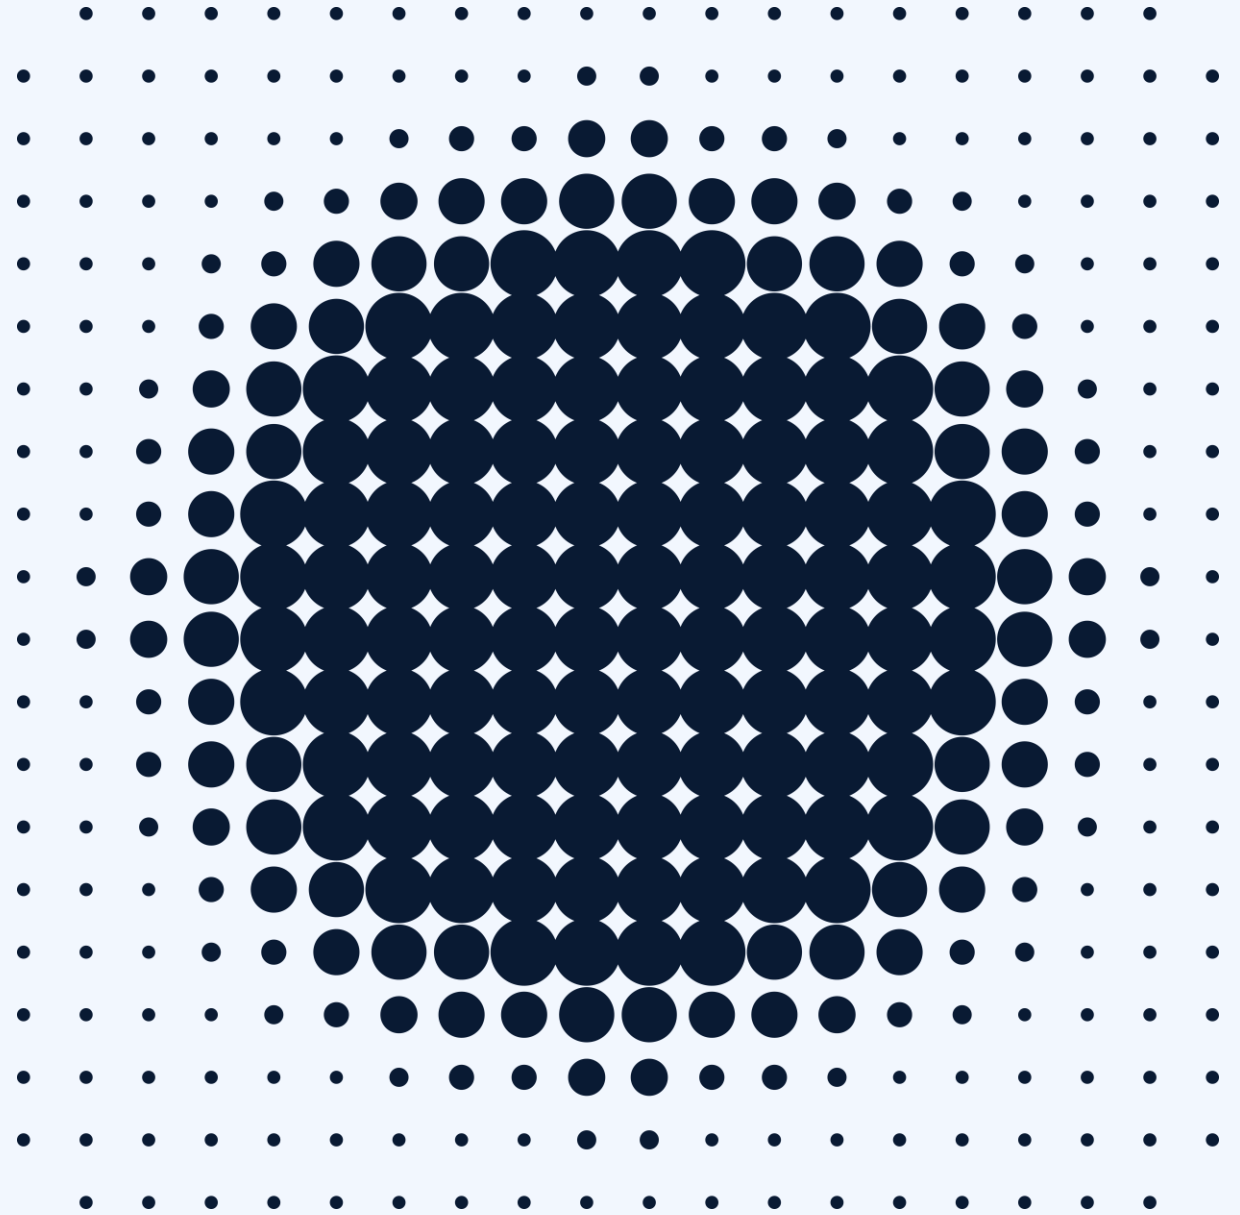

Benefits of v2

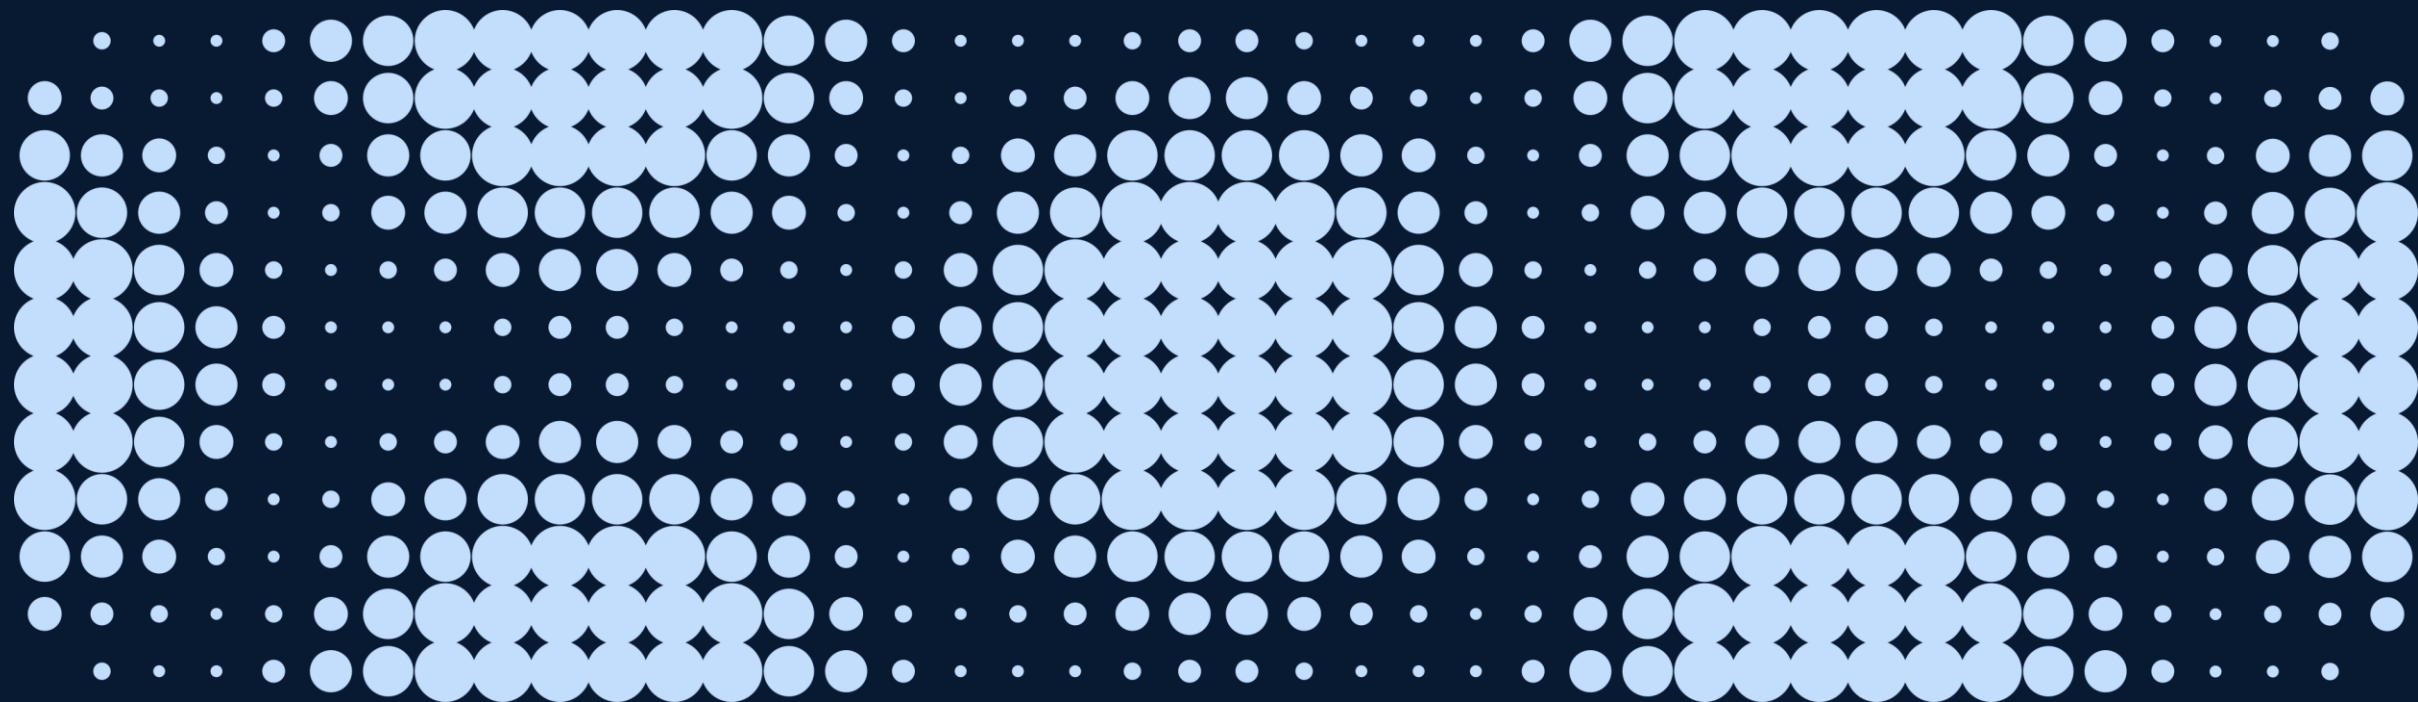

- **Web front-end**
 - Easy to configure prices
 - Easy to configure applications
 - Easy to configure groups
- **Refresh data on-demand**
- **Continuous updates without customer interaction**
 - Role based access
 - AI license recommender
 - Warranty and age information for devices
 - Insights in web native platform
- **70% reduction in Azure running cost**
- **~15 minutes install time**
- **Supports migration of historical data for existing customers**
